SUMMARY

Solution-oriented Software Engineer with experience in full-stack development (Node.js, TypeScript, React), leading teams and projects end to end. Passionate about Clean Code, SOLID architecture, and software security: applies cryptography (AES, RSA, digital signatures, hashing), multi-factor authentication, vulnerability analysis, and secure coding to build scalable, protected applications. Co-founder and developer of PastoralApp, published on Google Play, led from concept to production while managing teams, planning, and budgets.

EDUCATION

B.S. in Software Engineering — ICESI University, Cali, Colombia / *Dean's List every semester* *Expected Aug 2027*
Master Coding — DEV.F *Jul 2020 – Jul 2021*
White Ribbon — DEV.F *Jun 2020 – Jul 2021*

PROFESSIONAL EXPERIENCE

Academic Tutor — ICESI University *Aug 2026 – Present*

- Provides peer tutoring in open-format sessions supporting students across all courses of Software Engineering program
- Delivers one-on-one tutoring for Internet Computing II, covering Spring Boot, REST APIs, JPA/Spring Data, MVC, and React

Junior Software Developer — Adenium CST *Summer 2025 & Summer 2026*

- Contributed to a live production codebase; built and refactored functions, components, and modules
- Fixed bugs reported by QA, wrote unit tests, and managed code through Git branching and pull requests

Full-Stack Developer — DataHome (Remote, Mexico) *Feb 2021 – Aug 2021*

- Built and maintained React/TypeScript frontend components and Python backend endpoints across a remote team
- Shipped 10 new features and improved UI/UX across 3 key modules; refactored legacy code to reduce complexity

RELEVANT EXPERIENCE

Co-Founder & Full-Stack Developer — PastoralApp *2026 – Present*

- Co-founded and built end to end (React, JavaScript, Node.js) a platform for religious communities; published on Google Play

Leader — University Catholic Movement (MCU) *2025 – Present*

- Leads a university group of 50–100 members; plans retreats and events, negotiates vendors, and manages budgets

Data & AI Developer — Human Activity Recognition System *Jan 2025 – Jun 2025*

- Collected and preprocessed data for a posture/movement classification model; supported ML model validation

Full-Stack Developer — Gym Management Web App (MVP) *Jan 2025 – Jun 2025*

- Built a gym management app (auth, class/coach admin, attendance and subscriptions) using Next.js and NestJS

SKILLS

Technical: JavaScript, TypeScript, Python, Java, Scala, Node.js, NestJS, React, Next.js, Spring Boot, PostgreSQL, MongoDB, SQL, RESTful APIs, Git/GitHub, Docker

Languages: Spanish (Native), English (B2/C1)

Interests: Physical activity, hiking, guitar, Catholic youth community volunteering
